Pluck from the memory a rooted sorrow;
Raze out the written troubles of the brain;
And, with some sweet oblivious antidote,
Cleanse the stuff'd bosom of that perilous stuff

But let concealment, like a worm i' the bud
Feed on her damask cheek; she pin'd in thought
And, with a green and yellow melancholy,
She sat like patience on a monument.

## Explanation of the Articles in the Calendar.

These pages are calculated, for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times (standard 75th meridian) when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the standard times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the Sun's centre is 18° below the horizon.*

NOTE.—Standard times are given in all columns headed Toronto or Quebec. In calculating the mean time at these places has been taken at Toronto as 17m. 34s. slower, and at Quebec as 14m. faster than standard.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

| Latitude | 42° | 43° | 44° | 45° | 46° | 47° | 48° | 49° | 50° |
|---|---|---|---|---|---|---|---|---|---|
| 1st Correction for Degrees | —5′ 27″ | —3′ 43″ | —1′ 55″ | 0′ 00″ | + 2′ 1″ | + 4′ 8″ | +6′ 22″ | +8′ 44″ | +11′ 14″ |
| 2nd Correction for each minute of latitude | + 1″.7 | + 1″.8 | + 1″.9 | + 2″.0 | + 2″.1 | + 2″.2 | + 2″.4 | + 2″.5 | + 2″.6 |

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′...1st correction = —3′ 43″ 2nd correction + 1.8 × 20 = + 0′ 36″
" " 47° 40′... " " = + 4′ 8″ " " + 2.2 × 40 = + 1′ 28″
" " 45° 10′... " " = + 0′ 0″ " " + 2.0 × 10 = + 0′ 20″

THE PLANETS.—The local mean times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

The times of the SUN'S RISING AND SETTING* are given for the upper limb, and are corrected for refraction for Toronto and Quebec.

The standard times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 11 to October 10. It passes the meridian twice on October 10: and in the afternoon during the rest of the year.

* Although these times are calculated for Toronto and Quebec only, the standard times at other places differing not much in latitude from one of these places may be obtained with sufficient accuracy for ordinary purposes, by adding one minute for every 4° west of Toronto or Quebec, and subtracting one minute for every 4° east of Toronto or Quebec.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

## Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

## Eclipses.

In the year 1885 there will be two eclipses of the Sun and two of the Moon.

I.—An Annular Eclipse of the Sun, March 16. Visible in Canada as an Annular or Partial Eclipse.

The following points are on the Line of Central Eclipse:—

| Long. | Lat. | Long. | Lat. |
|---|---|---|---|
| 109° 58′ W | 46° 43′ N | 84° 51′ W | 59° 10′ N |
| 101 58 | 51 0 | 75 18 | 62 36 |
| 93 39 | 55 15 | | |

At Toronto the Eclipse begins at 12h. 0m. ·8 *standard time.* Angle of first contact from the North Pole 97° towards the West for direct image.

The time of nearest approach is 1h. 26m. ·6 The magnitude of the Eclipse (Sun's diameter = 1) is 0·647.

If liable to more than one rate of postage, and insufficiently prepaid, the letter will (provided one full rate of 3 cents be paid) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, are charged 1 cent each, and must be prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps.

*Post Cards.*—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign 2 cents each.

*United Kingdom.*—Postage on Letters 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

*United States.*—The rate on Letters to the United States is the same as in Canada, and must be prepaid.

### REGISTRATION OF LETTERS.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp) in addition to the Postage, is as follows, viz.:

| | |
|---|---|
| On Letters to any other place in Canada or British North America | 2 cents. |
| On Letters for the United States | 5 " |
| On Letters for the United Kingdom | 5 " |
| On Parcels, Patterns or Samples, in Canada | 5 " |
| On Book Packets and Newspapers to United Kingdom | 5 " |

Both the Postage charge and Registration fee must in all cases be prepaid by stamp.

Registered Letter Stamps have been issued of the denominations of 2, 5 and 8 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

### BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerreotypes, when not on glass, or in frames containing glass; any quantity of paper, vellum, or parchment [to the exclusion of letters or papers, &c., sent as merchandise]; and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the three; and may be either British, Colonial or Foreign. No package must exceed 4 lbs. 6 oz, in weight, nor must the size exceed two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland and the United States, is 1 cent per 4 oz., which must be prepaid by Stamps.

The rate to Great Britain is 1 cent per 2 oz.

PARCEL POST.

The charge on Parcels by the Parcel Post which is limited to places within the Dominion, is 6 cents for every 4 oz., or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by Stamps.

Parcels cannot be transmitted by Post to any place beyond the limits of the Dominion of Canada, nor can any Parcel be forwarded to British Columbia or Manitoba (except to the Cities of Winnipeg and Victoria, B.C., actually upon the line of the C. P. R., to which the limit is 5 lbs.) *via* the United States, which exceeds in weight the limit of 2 lbs. 3 oz.

Eye glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post.

MISCELLANEOUS MATTER.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of a rate of 1 cent per 4 oz. The limit of weight is 4 lbs. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but the greater part of the matter referred to under that head may be forwarded to the United Kingdom by book post.

On all pamphlets, occasional publications, printed circulars, prices current, hand-bills, exhibitor's entry tickets for Dominion or Provincial Exhibitions, book and newspaper manuscripts; printers' proof sheets, whether corrected or not; maps, prints, drawings, engravings, lithographs, photographs, when not on glass or in cases containing glass; botanical and entomological specimens, when properly put up, so as to prevent injury to the contents of the mails; sheet music whether printed or written; documents wholly or partly printed or written, such as deeds, insurance policies (including renewal receipts when attached to the policies), voters' lists, militia and school returns, or other documents of like nature, the rate of postage is one cent for each four ounces; provided that no letter or other communication intended to serve the purpose of a letter be sent or enclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged; and that the postage rate be prepaid by postage stamp or stamped post bands or wrappers, in all cases. Limit of weight, 4 lbs. To all parts of Manitoba, the North-West Territories and British Columbia (except the City of Winnipeg, to which the 4-lb. limit applies), the limit of weight is 2 lbs. 3 oz.

No packet of miscellaneous matter can be transmitted by mail if it exceed 24 inches in length or 12 inches in width or depth.

Legal and Commercial papers generally (including Bank Pass-books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted by and from the same for transmission by mail to regular subscribers or news agents in Canada, are sent free; if addressed to Great Britain, or the United States, they may be posted by the same on prepayment of a Rate of one cent for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be *one cent per four oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

TRANSIENT NEWSPAPERS.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

*Specimen copies* of newspapers and periodicals from the office of publication are to be treated as *transient* newspapers or periodicals, the rate upon which is one cent per four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada Newspapers *posted from the Office of Publication* to subscribers in the United Kingdom—if to be sent in the Mails forwarded *via* New York or Boston, must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz; but if sent by Canada Packet, such papers may pass, as now, on prepayment by the publisher, at the time of posting, of the ordinary domestic rate of one cent per pound. Canadian Periodicals when sent by mail to the United Kingdom or to British Colonies or Foreign Countries (except the United States) are liable to ordinary book packet rates. All packages of newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the package is mailed.

PATTERNS OR SAMPLES WITHIN THE DOMINION.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered on affixing thereto a registration stamp of the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

UNITED STATES.

Patterns and Samples of Merchandise, posted for places in the United States, will continue to be subject to the special rate of 10 cents each, prepaid by postage stamps, and must not exceed 8 oz. in weight.

UNITED KINGDOM.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 8 oz. in weight, and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz.

The fluctuations in the expenses of management, and the average cost of each transaction—where not explained by variations in the amount of business and the number of transactions—are mainly attributable to payments in one year for services not wholly chargeable to that year.

The total cost of maintaining the Post Office Savings Bank, including interest allowed to depositors and all expenses of management, averages about $4\frac{1}{10}$ per cent. on the average Savings Bank Balance in the hands of the Government.

Nine and one-seventh per cent. of the transactions during the past year, or one in every eleven deposits and withdrawals, were by depositors availing themselves of their privilege to deposit and withdraw at pleasure at any Post Office Savings Bank without change of Pass Book. The transactions of this character numbered 15,127 during the year.

# COPYRIGHTS IN CANADA.

Copyrights may be secnred by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed for a further term of 14 years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

# THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centurial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should *not* be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to *eleven* days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centurial years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by *twelve* days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, is the old style retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: $\frac{12\text{th}}{24\text{th}}$ March, or $\frac{25\text{th September}}{7\text{th October}}$; or, it may be, $\frac{28\text{th December 18--}}{9\text{th January, 18--}}$.

# MERCANTILE LAW.

**Promissory Notes and Bills of Exchange**—Must be payable absolutely, and not depend upon a contingency. Three days' grace allowed except when payable upon demand. Can be written either in ink or lead pencil. Notice of dishonour must be sent to all endorsers. Those not notified are released from all liability. Notice must be sent to the correct address of endorser; but if that is not known, notice sent to the place where note or bill purports to be made will be sufficient. Checks are treated as bills of exchange, and must be presented the day they are received or on the following day. Notes and bills endorsed in blank are transferable by delivery, the same as if payable to bearer. Notes bear interest during currency only if so stated. The loss of a bill or note does not prevent the collection of it, but if required the holder must give indemnity before the lost note is paid. Notes and bills are payable any time during the day they mature. If no time is mentioned for payment, notes and bills are payable on demand. Notes made on Sunday are void. Notes and bills falling due on Sunday are payable the next day.

**Landlord and Tenant.**—An agreement for a lease must be in writing; a lease, however, for less than three years can be made verbally. Rent must be due before it can be distrained for. If tenancy continues after a term of years, without any new bargain, it will be as a tenancy from year to year. No notice is required in case of the termination of a lease for a definite time. A full six months' notice, ending with the end of the year, is required to terminate a tenancy from year to year. A monthly tenancy requires a month's notice. A weekly tenancy requires a week's notice to end it. A covenant for renewal does not call for a renewal covenant in the new lease, unless expressly called for. Destruction by fire during the currency of a lease does not release the tenant from payment of rent unless expressly provided for. The landlord is required to look after the roof and outside walls, but the tenant cannot require any defect apparent at the time of the lease to be repaired. Defective drainage, causing injury to life or health, will justify a tenant in leaving.

**Master and Servant.**—A servant is bound to obey all orders of the master in the scope of the employment; a disobedience of orders will justify an immediate dismissal. Both master and servant are entitled to reasonable notice before an engagement is terminated. A servant wrongfully dismissed is only entitled to the actual damage sustained; he must credit the master with any wages earned by him. The master is entitled to recover the damages sustained by reason of a servant deserting his employ.

**Legal Holidays.**—*In Ontario*—Sundays, New Year's Day, Good Friday, Whit-Monday, Christmas Day, the day appointed for the celebration of the Queen's Birthday, Dominion Day, and any day appointed by proclamation for a public holiday or for a general fast or thanksgiving. *In Quebec*—Sundays, New Year's Day, Epiphany, Annunciation, Good Friday, Ascension, Corpus Christi, St. Peter's, St. Paul's, All Saints, Conception, Christmas Day, Queen's Birthday, Dominion Day, also any day appointed by proclamation for a general fast or thanksgiving.

**Contracts.**—Contracts may be either oral or written. Oral contracts require a consideration to support them. Contracts for sale of goods over $40 in value must be in writing or accompanied by part performance, or part payment. A contract may be made by letters and telegrams. Contracts made on Sunday (with a few exceptions) are illegal. Contracts contrary to public policy, or of an immoral character, are illegal. A contract for sale of land must be in writing. To make a good contract the names of the parties, the consideration, and the article sold or matter agreed upon should clearly appear. Fraud vitiates all contracts.

**Bills of Sale and Chattel Mortgages**—All sales and mortgages of personal property not accompanied by actual, immediate and continued change of possession must be in writing, with an affidavit of *bona fides* in the form required by the Act, and must be filed within five days from date of execution in the office of the Clerk of the County Court of the County where the vendor or mortgagor resides; or if he is not resident in Ontario, where the goods are situated, otherwise they are void as against creditors of vendor or mortgagor and subsequent purchasers or mortgagees in good faith for value. Mortgages to secure endorsements must set ont the endorsements, and must be payable within one year. A renewal of chattel mortgage must be filed within thirty days preceding the expiration of one year from date of previous filing, otherwise the mortgage becomes void.

**Guarantees**—Must be in writing; will be construed strictly; should be distinctly worded, so that no question will arise whether limited or continuing.

**Fraud.**—Sometimes criminal proceedings may be instituted for fraud. Fraud is always a ground of relief. It is a fraud to conceal a fraud.

**Interest.**—Where interest is payable and no rate has been agreed upon, the rate allowed is six per cent. Any rate can be contracted for. Interest is in the nature of damages, and is not allowed upon open accounts, unless it is shewn that there is either an express or implied contract to pay interest. It is advisable to have printed upon bill heads or statements a notice that if the account is not paid when due, interest will be charged. Interest is allowed on overdue bills and notes from the day they become due. Payments are applied first in payment of interest to date, then in reduction of principal. The practice of allowing interest on both sides of an account to day of settlement is not correct. Compound interest is not allowed, unless expressly agreed upon. A contract to reduce the rate of interest in case of punctual payment is

good, while one to increase the rate in case of default is bad. Mortgages of real estate must shew on their face the rate at which interest is to be calculated.

**Principal and Agent.**—Principals are responsible for the acts of their agents. Agency may be either general or limited. An agent must be a third person, not the other contracting party. A subsequent ratification of the acts of an agent will bind the principal. Agent's authority is not revoked till revocation is communicated to him. An agent signing in his own name is not allowed to offer parol evidence to prove that he did not intend to bind himself personally, but parol evidence is admissable to bind his principal. A broker is not entitled to receive payment for goods, while a factor is. A *del credere* agency is where the agent in consideration of a larger commission guarantees the price of the goods sold.

**Partnership.**—Each member of a partnership is responsible for the whole amount of the debts of the firm, except in case of special partnership. A special partner is only responsible to the amount of the capital contributed by him, but he cannot take any part in the management of the business. The act of one partner binds all. Partners are bound to keep good faith with each other. Partnership may be either for a term of years or at will. A partnership at will may be dissolved at any time. The death of one partner dissolves the partnership, unless provided for in the articles of co-partnership. The sale by a partner of his interest in the firm also dissolves the partnership. In the absence of express agreement partners share equally.

**Limitation of Actions.**—On simple contracts, debts and money demands, six years; on contracts under seal, twenty years. For the recovery of land, ten years. Against municipal corporationsfor damages, three months. Against sheriffs and bailiffs for acts done in the course of their duties, six months. Part payment of a debt barred by the statute will revive the debt.

**Exemptions from Seizure under Execution in Ontario.**—Wearing apparel of debtor and family, bed and bedding in ordinary use, one stove and pipes, one crane, one pair andirons, one set cooking utensils, one pair tongs and shovel, one table, six chairs, six knives, six forks, six teacups, six saucers, one sugar basin, one milk jug, one teapot, six spoons, all spinning wheels and weaving looms in domestic use, ten vols. books, one axe, one saw, one gun, six traps and fishing net, and all necessary fuel and provisions for debtor and family for thirty days, and not to exceed $40 in value, one cow, four sheep, two hogs and food for thirty days, tools or implements to the value of $60, all materials furnished to mechanics and workmen for construction of building under contract. (No articles exempt from seizure for debt contracted for identical article). Landlord has preferential claim for *four weeks*, if let by the week; two terms, if let for periods less than a year, but in no case to exceed one year.

**Assignment.**—There is no insolvency law. Assignments are made to trustee for creditors. A clause in assignment giving the trustee the power to carry on trade to realize as a going concern will not vitiate assignment. Trustee is bound to use ordinary business prudence in dealing with estate. Trustee is responsible for fraud or gross misconduct. The trustee's powers are limited to those possessed by the debtor, so he has no power to set aside a preference given by debtor. A fraudulent preference can only be attacked in an action by a creditor. A trustee can be compelled in equity to give an account of his dealings with the estate.

**Married Women** can carry on business, sue and be sued in the same manner as if unmarried. Are entitled to hold property free from debts and control of husband, but cannot convey away real estate without husband's concurrence. Are entitled to dower in all real estate owned by husband during the marriage, and in such equitable real estate as the husband may die entitled to.

**Arrest.**—Arrest for debt has been abolished, but if a debtor is about to leave Ontario with intent to defraud or hinder one or all of his creditors in the recovery of their claims, he may be arrested under a writ of capias, and detained until he gives security for the claim. A writ of *ca. sa.* may be obtained after judgment. The writ is only issued upon order of a Judge, and the debt must exceed $100. A judgment debtor being examined as such, and not making satisfactory answers, may be committed to Jail by order of a Judge, until he does makes satisfactory answers. In the Division Court the Judge may order the debtor to make regular payments on the Judgment, and default may commit him for not obeying the order.

**Replevin**—Is used to obtain possession of goods wrongfully detained. Plaintiff must give security to three times the value of the goods before he can obtain them, and must proceed promptly with his action to prove the ownership of the goods.

**Wills.**—A will should express the intention of the testator in clear language. It may be drawn by any person. A bequest to a witness is void. A will must be signed by the testator in the presence of two witnesses, who, at his request, in his presence, and in the presence of each other, should affix their names as witnesses. Charitable bequests are only payable out of pure personal estate; not out of real estate or personalty secured upon land.

**Miscellaneous.**—In any case of doubt is advisable to consult a good solicitor promptly, and carefully tell all the facts.

Ignorance of the law excuses no one.

The law compels no one to do impossibilities.

Signatures made with a lead pencil are good.

No consideration is sufficient in law if it be illegal in its nature.

Entered according to Act of the Parliament of Canada, in the year one thousand eight hundred and eighty-four, by COPP, CLARK & CO., in the Office of the Minister of Agriculture.

Collegiate Institutes and High Schools.—Each of the High Schools (which form the intermediate link between the Public Schools and the Universities), is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Council, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, unless certified and appointed before 18th September, 1865. Besides fees, local rates to the extent of half the government grant must be raised for the master's salary. Every High School with two qualified teachers receives a fixed amount of $500, and also a certain sum on salaries of teachers. High Schools which have an average attendance of 60 male classical pupils, may be made Collegiate Institutes, and receive $250 additional grant. An extra grant is provided for masters taking certain meteorological observations and giving scientific knowledge preparatory to military instruction. Pupils attending these schools are prepared for Matriculation in the Universities. There were 88 High Schools and 16 Collegiate Institutes, with 125,000 pupils, in Ontario, in 1883. J. E. Hodgson, M.A., and John Seath, B.A., Inspectors of High Schools.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,150 Public Schools, with 470,000 pupils, in Ontario, in 1883.

Educational Museum.—Connected with the Education Department is a Museum, containing specimens of School apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

The Total Number of Educational Institutions of all kinds reported by the Educational Department as in operation in the Province of Ontario during 1883 was 5,300, attended by 480,000 pupils, and expending upwards of $3,600,000 in their support.

## THE BRITISH EMPIRE.

In the following brief table an abstract is given (approximately) of the area, population, revenue, public debt, and commerce of the British Empire. The figures presented are near enough for the purpose, although it is to be regretted that the precise amounts cannot be procured. The table, short as it is, presents a result unparalleled in the World's history. The British Empire is grander than that of either Greece or Rome, or any other that has ever existed, and its rule more beneficent. Wherever the flag of England floats there is freedom. Justice is impartially administered, and no man can be punished except for infringements of the law. Religion also is free. With all its anomalies, the British Empire under its present Sovereign presents the nearest approach to a true Commonwealth that has yet been seen. It would be well if teachers would impress these truths upon their pupils, and also make them better acquainted with the geography, the productions, and the capabilities of the various countries owning obedience to English rule.

## THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed $200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to $400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENT DEBTORS' COURTS.—These Courts, which had reference to traders only, were regulated by the Act known as the "Insolvent Act of 1875," which consolidated and assimilated the practice in Bankruptcy and Insolvency in the several Provinces of the Dominion. The County Judges in the several Counties presided, and official assignees were nominated by the Governor in Council, and were officers of the Court having jurisdiction in the County or District for which they were appointed. And appeals lay to the Court of Appeal of Ontario. This Statute has now been repealed, and the Courts and Assignees are only continuing to wind up pending cases.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 when the amount is ascertained by the signature of the defendant, subject to an appeal to the Court of Appeal, and to $100 in other cases; but the sums of the account to

be gone into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

# ONTARIO LOAN AND SAVINGS COMPANIES.

W. A. DOUGLAS, B.A., TORONTO.

The building societies or loan companies first formed in Ontario were established on the terminable plan after the model of the building societies in Britain. It was soon found, however, that permanent institutions could operate much more advantageously; the terminable societies therefore are now almost, if not altogether, unknown.

Of the companies now operating the oldest worth mentioning commenced in 1855 with a capital reported in the first annual statement at $17,000, and total assets $68,800. The report for the 31st December, 1883, enumerates 73 companies, having a paid-up capital of $28,028,625, and total assets $79,555,474. The paid-up capital of the banks at the same date was $18,432,760. All these companies are founded on the principle of limited liability, the limit in every case being the amount of the subscribed capital.

Most of these companies are authorized to take money on deposit and to borrow by the issue of debentures, and in the case of those companies that operate under the General Act the borrowing power is limited as follows:—The deposits cannot exceed the paid-up capital, and the total "borrowings," including the deposits, are limited to three times the paid-up capital. In most of the companies the only security on which they can lend is real estate or the company's own stock.

The prevailing rate of interest is at present seven per cent. in the Province of Ontario, and from eight to ten in Manitoba.

The following table gives approximately the rates of interest ruling for the last 21 years:—

| | Per Cent. | | Per Cent. |
|---|---|---|---|
| 1863 | 12 | 1874 | 8-9 |
| 1864 | 12 | 1875 | 8-9 |
| 1865 | 12 | 1876 | 8-9 |
| 1866 | 11 | 1877 | 8-9 |
| 1867 | 11 | 1878 | 8 8½ |
| 1868 | 11 | 1879 | 8-8½ |
| 1869 | 11 | 1880 | 7-8½ |
| 1870 | 11 | 1881 | 6½ 7 |
| 1871 | 9-10 | 1882 | 6½-7 |
| 1872 | 8-9½ | 1883 | 7 |
| 1873 | 8-9 | 1884 | 7 |

In the early period of loaning the mortgages were mostly repayable by equal annual instalments, including interest and sinking fund; but the calculation of annuities was so utterly bewildering to farmers, and the adjustment of accounts in case of transfers so difficult, and hence often unsatisfactory, that the instalment method has been very largely, if not wholly, abandoned. There are no usury laws in Ontario, otherwise I am inclined to think that these companies would have been less numerous.

In Britain building societies were organized principally to enable artisans to obtain homes; in the new territories of this country they are used largely to enable settlers to buy and improve farms. When land is cheap the settler may for several reasons be quite willing to borrow a sum of money to procure land, even though the rate of interest is very high. With a thousand dollars of his own money and another thousand borrowed he can obtain twice the acreage. If he rents he knows that the price will advance. If he rents he obtains none of this advance. If he buys and mortgages, all the improvements that he makes, all increased land values are his. Hence tenants are few, mortgages are many.

Until about the year 1874 most of the loan companies obtained their funds from local sources, but about that year some of the larger companies entered the British market and obtained funds by the sale of debentures. The amount thus borrowed now amounts to $25,679,803. It may be interesting to notice as an instance of the aid science renders to commerce that a large portion of this money is transmitted across the ocean by telegraph. The sun crosses the meridians at the rate of only fifteen degrees per hour. Electricity travels much faster than that, so that we may witness the extraordinary phenomenon of a capitalist buying a loan company's debentures at noon in England, the agent advising by telegram to Toronto, the advice arriving some hours before noon; at the same time an agent in Winnipeg is drawing for the amount, which he hands to a mortgagor. The transaction began at noon is completed half-way round the globe some hours before noon on the same day.

The money placed with these companies on deposit shows a rapid increase from $4,335,674 in 1874 to $13,161,506 in 1883. If to this latter amount we add the debentures sold in Canada, $3,591,466, the sum amounts to $16,752,972, an increase of nearly 300 per cent. in nine years. The increase of savings placed in the Government savings bank during the same time in the Provinces of Quebec and Ontario (I have not the returns for Ontario alone) shows a slightly more rapid rate of increase from $3,207,452 in 1873 to $13,245,553 on the 30th June of the present year. The bank returns (for Ontario and Quebec) for the same period show an increase from $63,588,770 to $86,630,464, an increase of about 36 per cent.

These figures would seem to indicate a rapid growth of wealth, and while they undoubtedly show increased wealth somewhere, we must never overlook the fact that an increase of the above figures show simply increased credit to one party and debit to another. In the early history of any settlement, savings are probably as rapid as at any other period, but statistics would not indicate such to be the fact; for the surplus savings do not pass through any savings institution, but are invested directly either in the purchase or clearing of land, the payment of workmen for the erection of buildings or fences, making drains or other improvements. One of the most interesting considerations respecting the social condition of any people is the possibilities of savings. Each family needs a certain minimum amount of sustenance and education. Any surplus income above that minimum may be saved. The importance of this enquiry we may appreciate when we observe that labour produces the wealth of commerce; but labour does not possess the wealth. From information obtained from Trades Unions by the Bureau of Industries for Ontario, I find that in four leading cities, 590 workmen, aided in some cases by their families, saved last year a total of $25,742, or an average of $43 66 each.

The following figures are also reported:—

| | |
|---|---|
| Average wages of workmen without dependents | $ 376 68 |
| Average cost of living | 270 02 |
| Leaving a surplus of savings amounting to .. | $ 106 66 |
| Average wages of workmen with dependents .. | $ 470 22 |
| Average cost of living | 441 85 |
| Leaving a surplus of savings amounting to .. | $ 28 37 |

Out of a total of 590 workmen 360 saved an average of $71 50, while 230 saved nothing and 28 reported that their earnings were not equal to the cost of living. These returns include only skilled artisans, so that they give only approximately the possibilities of saving on the part of unskilled labour.

The Provinces of Ontario and Quebec present some striking differences in their financial institutions. The population of Ontario in 1881 was 1,920,000, and that of Quebec 1,359,000, about as 7 is to 5. The capital of the Ontario banks is $18,764,500, that of Quebec $36,298,700, about as 1 is to 2, while the capital of the Ontario Loan Companies is $28,028,625, and that of Quebec only $2,870,821, a proportion of nearly 10 to 1.

This Association Merits the Confidence that the Public is reposing in it from the FACT:—

That the SECURITY offered to Policy Holders is UNSURPASSED by any Company doing business in Canada.

That it has NO SCHEMES of Insurance, but the *well-established lines*, hence the policy holders cannot be misled as to their contracts.

That its STATEMENTS TO THE PUBLIC can be readily understood, its cash statement showing every item of income and how expended.

That its POSITION IS ASCERTAINED ANNUALLY from a detailed valuation in which every item of Liability is included.

That its Policies are INDISPUTABLE after three years, and NON-FORFEITABLE after two years' existence.

That its PROFITS ARE DISTRIBUTED upon an *equitable* basis. The profits to one class of policy-holders are NOT LESSENED to give LARGER PROFITS to any other class, which affords SUPERIOR ADVANTAGES over the UNIFORM BONUS PLAN of distribution.

# THE ÆTNA LIFE INSURANCE CO.

Has recently made a deposit with the Finance Minister at Ottawa, of $200,000 More, bringing its tota Government Deposit in Canada up t› the above magnificent sum, all in first-class Government Bonds. This is about four times the deposit of any other Company.

## BUSINESS OF 1883.

The following figures are taken from the Government Blue Books, and show the handsome growth regular Life Insurance is making in Canada.

| COMPANY. | 1883 New Insurance. | Premiums of 1883. | Increase over 1881. | Working Expenses per $100. | Deposit at Ottawa. |
|---|---|---|---|---|---|
| **Ætna Life**, Hartford | $2,258,875 | $575,994 | $172,397 | $10.34 | $725,000 |
| Canada Life | 3 609,250 | 799,824 | 131,713 | 14.40 | 54,000 |
| Confederation | 2,280,662 | 309,377 | 94,639 | 21.90 | 75,467 |
| Equitable, N. Y. | 1,945,000 | 302,404 | 82,039 | 14.85 | 365,000 |
| Life Association, Hamilton | 433,016 | 47,622 | 10,315 | 49.70 | 95,540 |
| London & Lancashire | 1,056,144 | 116,431 | 37,731 | 22.06 | 109,822 |
| North American | 1,347,088 | 90,941 | 56,588 | 30.00 | 50,000 |
| Ontario Mutual | 1,907,500 | 180,593 | 20,070 | 25.00 | 91,780 |
| Standard, of Edinboro' | 956,031 | 259,296 | 64,572 | 13.98 | 153,900 |
| Sun, of Montreal | 1,505,433 | 174,035 | 25,471 | 26.90 | 50,400 |
| Travellers, Hartford | 555,110 | 117,880 | 22,975 | 16.26 | 140,500 |
| Union Mutual, Portland | 709,250 | 113,449 | 18,645 | 25.20 | 170,000 |

**NEW INSURANCE.**—The total obtained by 23 Companies was $21,593,833—an increase over 1881 of $3,975,822. This shows an average increase of $172,860, whilst the ÆTNA LIFE'S increase was $437,573, or nearly three times the average.

**PREMIUMS PAID.**—The total to 36 Companies in Canada in 1883 was $3,759,702—an increase in two years of $665,013. The ÆTNA LIFE'S increase of $172,397 was nearly *one-third* of the total increase, and over $40,000 greater than that of any other Company.

**WORKING EXPENSES.**—Economy is a most important matter in a Life Insurance Company, and the difference between Companies in this respect is very great. The 4th column in the above table is from official sources, and may be relied upon as approximately correct. The Company that consumes the smallest amount in working expenses out of each $100 it receives, is the one that will, other things being equal, give the best results to its policy holders. Choose an economical company if you desire a satisfactory return for your money.

In selecting a Company in which to maintain a Policy, the advice of the British Board of Trade should ever be remembered: *"The public cannot be misled if they select an office which transacts its business at a small percentage of working cost."*

The extraordinary increase in the ÆTNA'S business throughout the Dominion is an evidence that it meets a public want, viz: Life Insurance of the most select character, furnished by means of annual cash dividends at NET COST PRICE. Every Policy now being issued, after three years, is NONFORFEITABLE by its terms, and INDISPUTABLE AFTER DEATH. And every policy issued in Canada since March, 1878, is thoroughly secured by the deposit at Ottawa, which is not a mere license fee of $50,000 (as in the case of some companies), but the full GOVERNMENT RESERVE, increasing from year to year, as each additional premium is paid in. Nothing like being sure.

### TESTIMONY TO ITS EXCELLENCE.

There should not be a school in the Dominion, where access cannot readily and constantly be had to **Webster's Unabridged Dictionary.** No teacher, and we might add, no reader of the language, can afford to be without it, for it is a monumental work, a noble tribute to our grand old mother-tongue.—*The Canada Educational Monthly, Toronto, Oct.*, 1881.

For the student, the professional man, the teacher, the school, the family, in fact, for every one who cares to add to his store of knowledge, we consider this splendid work (Webster's Unabridged) eminently suited, and, as an investment, it is one that repays a hundred-fold the cost of it.—*Canada School Journal, Toronto, April*, 1884.

It may be regarded as the one final authority, safely to be relied on where others are emphatically differing among themselves.—*The Week, Toronto, January*, 1884.

It has long since established its claim, past the power of even envy to dispute, to a place in the very highest ranks of such publications. Those who have given it the most careful consideration will be the most enthusiastic in its praise. Its thorough completeness for all the practical purposes of life, the clearness, the succinctness and the accuracy of its definitions, the almost superabundant wealth of its illustrations, and its immense resources as a storehouse of information on a vast variety of subjects, render it an invaluable companion in every library and at every fireside.—*The Globe, Toronto, July*, 1884.

The best and most useful Dictionary of the English language ever published.—*London Times.*

Certainly the best practical English Dictionary extant.—*Quarterly Review, London.*

## MAY.

Fling away ambition.
By that sin fell the angels; how can man then,
The image of his Maker, hope to win by it?
Love thyself last; cherish those hearts that hate thee;
Corruption wins not more than honesty,
Still in thy right hand carry gentle peace
To silence envious tongues. SHAKESPEARE.

Pursued his purposes. Sir Henry Taylor.

Be useful where thou livest; that they may
Both want and wish thy pleasing presence still.
Kindness, good parts, great places, are the way
To compasse this. Finds out men's wants and will,
And meet them there. All worldly joys go lesse
To the one joy of doing kindnesses.

That land thy country, and that spot thy home.

## Explanation of the Articles in the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy or every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times (standard 75th meridian) when the Moon passes the geocentric longtudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the standard times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the Sun's centre is 18° below the horizon.*

NOTE.—Standard times are given in all columns headed Toronto or Quebec. In calculating the mean time at these places has been taken at Toronto as 17m. 34s. slower, and at Quebec as 14m. faster than standard.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

| Latitude | 42° | 43° | 44° | 45° | 46° | 47° | 48° | 49° | 50° |
|---|---|---|---|---|---|---|---|---|---|
| 1st Correction for Degrees | −5′ 27″ | −3′ 43″ | −1′ 55″ | 0′ 00″ | + 2′ 1″ | + 4′ 8″ | +6′ 22″ | +8′ 44″ | +11′ 14″ |
| 2nd Correction for each minute of latitude | + 1″.7 | + 1″.8 | + 1″.9 | + 2″.0 | + 2″.1 | + 2″.2 | + 2″.4 | + 2″.5 | + 2″.6 |

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′... 1st correction = − 3′ 43″ 2nd correction + 1.8 × 20 = + 0′ 36″
" " 47° 40′... " " = + 4′ 8″ " " + 2.2 × 40 + 1′ 28″
" " 45° 10′... " " = + 0′ 0″ " " + 2.0 × 10 = + 0′ 20″

THE PLANETS.—The local mean times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

The times of the SUN'S RISING AND SETTING* are given for the upper limb, and are corrected for refraction for Toronto and Quebec,

The standard times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 11 to October 10. It passes the meridian twice on October 10: and in the afternoon during the rest of the year.

* Although these times are calculated for Toronto and Quebec only, the standard times at other places differing not much in latitude from one of these places may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto or Quebec, and subtracting four minutes for every degree east of Toronto or Quebec.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

## Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

## Eclipses.

In the year 1886 there will be two eclipses, both of the Sun.

I.—An Annular Eclipse of the Sun, March 5. Visible in the western portion of Canada as a Partial Eclipse.

The following points are on the Line along which the Eclipse begins at sunset:—

| Long. | Lat. | Long. | Lat. |
|---|---|---|---|
| 86° 8′ W | 57° 36′ N | 79° 12′ W | 49° 11′ N |
| 82 15 | 54 8 | 76 59 | 43 33 |

At Toronto the Eclipse begins at 5h. 54·9 m. p. m. standard time of the 75° meridian. Angle of contact from the North 144° towards the West. At sunset ·132 of the Sun's diameter is eclipsed.

For places near Toronto the standard time of first contact may be found from the following formulæ :–

* Cos $\omega = 0{\cdot}12410 - [0{\cdot}19955]\ \sin\ l + [9{\cdot}78210]\ \cos\ l \cos\ (55° 40' {\cdot}7 - \lambda)$.

$t = 5$h. 2m. 49s. ·5 $- [3{\cdot}63745] \sin\ \omega + [3{\cdot}40211] \sin\ l + [3{\cdot}83926] \cos\ l \cos\ (72° 33' {\cdot}9 - \lambda)$.

Contact on the Sun's limb, $\omega + 20° 10'$ from the North towards the West.

II.—A total Eclipse of the Sun, August 29th, 1886. Invisible in Canada, except along the northern shore of Lake Erie, and at the extreme south-western point of Nova Scotia, where the limb of the Sun will be just grazed.

* In this formulæ the co-efficients of the various terms are the numbers whose logarithms are the numbers within the brackets [ ]; also, $l$ denotes the *geocentric* latitude, and $\lambda$ the longitude west of Greenwich.

## THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar, having, by the help of Sosigenes, an Alexandrian philosopher, came to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centurial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should *not* be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to *eleven* days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centurial years should, as in Pope Gregory's arrangement, not be bissextile or leap years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by *twelve* days, our first of January being equivalent to the 13th old style. In Russia, alone, of all Christian countries, is the old style retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: $\frac{12\text{th}}{24\text{th}}$ March, or $\frac{25\text{th September}}{7\text{th October}}$; or, it may be, $\frac{28\text{th December, 1880.}}{9\text{th January, 1881.}}$

# COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c, must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed for a further term of fourteen years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

# POSTAL INFORMATION.

### LETTER RATES, ETC.

*Canada.*—Letters posted in Canada, addressed to any place within the Dominion (including Manitoba, British Columbia and Prince Edward Island), 3 cents per ½ oz.; if unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If liable to more than one rate of postage, and insufficiently prepaid, the letter will (provided one full rate of 3 cents be paid) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent each, and must be prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps.

*Post Cards.*—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

*United Kingdom.*—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

*Newfoundland.*—Postage on Letters, 5 cents per ½ oz. Newspapers (*see* "Transient Newspapers"). Post Cards, 2 cents each. Prepayment necessary.

*Bermuda (via* Halifax or New York).—Letters, 5 cents per ½ oz. Newspapers, 2 cents each. Printed matter, 1 cent per 2 oz.

*United States.*—The rate on Letters to the United States is the same as in Canada, and must be prepaid.

### REGISTRATION OF LETTERS.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is as follows, viz.:

| | |
|---|---|
| On Letters to any other place in Canada or British North America | 2 cents. |
| On Letters for the United States | 5 " |
| On Letters for the United Kingdom | 5 " |
| On Parcels, Patterns or Samples, in Canada | 5 " |
| On Book Packets and Newspapers to United Kingdom | 5 " |

Both the Postage charge and Registration fee must in all cases be prepaid by stamp.

Registered Letter Stamps have been issued of the denominations of 2 and 5 cents, which may be obtained any Stamp Agency.

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

### BOOK POST.

A Book Packet may contain any number of separate

books, publications, works of literature or art, maps or prints, photographs, daguerreotypes when not on glass, or in frames containing glass; and the books, maps, &c., may be either written, printed or plain, or any mixture of the three, provided that no letter be enclosed or any writing intended to serve the purpose of a letter; and may be either British, Colonial or Foreign. No package must exceed 4 lbs. 6 oz. in weight, nor must the size exceed two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland and the United States, is 1 cent per 4 oz., which must be prepaid by Stamps.

The rate to Great Britain is 1 cent per 2 oz.

PARCEL POST.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by Stamps.

Parcels cannot be transmitted by Post to any place beyond the limits of the Dominion of Canada, nor can any Parcel be forwarded to British Columbia or Manitoba (except to the cities of Winnipeg and Victoria, B.C., and places actually upon the line of the C. P. R., to which the limit is 5 lbs.) *via* the United States, which exceeds in weight the limit of 2 lbs. 3 oz.

Eye glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post.

MISCELLANEOUS MATTER.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of a rate of 1 cent per 4 oz. The limit of weight is 4 lbs. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by book post.

On all pamphlets, occasional publications, printed circulars, prices current, hand-bills, exhibitors' entry tickets for Dominion or Provincial Exhibitions, book and newspaper manuscripts; printers' proof sheets, whether corrected or not; maps, prints, drawings engravings, lithographs, photographs, when not on glass or in cases containing glass; botanical and entomological specimens, when properly put up, so as to prevent injury to the contents of the mails; sheet music, whether printed or written; documents wholly or partly printed or written, such as deeds, insurance policies (including renewal receipts when attached to the policies), voters' lists, militia and school returns, or other documents of like nature, the rate of postage is one cent for each four ounces; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged; and that the postage rate be prepaid by postage stamp or stamped post bands or wrappers, in all cases. Limit of weight, 4 lbs. To all parts of Manitoba, the North-West Territories and British Columbia (except the City of Winnipeg, to which the 4-lb. limit applies), the limit of weight is 2 lbs. 3 oz.

No packet or miscellaneous matter can be transmitted by mail if it exceed 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted by and from the same for transmission by mail to regular subscribers or news agents in Canada, are sent free; if addressed to Great Britain, or the United States, they may be posted by the same on prepayment of a rate of one cent for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be *one cent per four oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

TRANSIENT NEWSPAPERS.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

*Specimen copies* of newspapers and periodicals from the office of publication are to be treated as *transient* newspapers or periodicals, the rate upon which is one cent per four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada Newspapers *posted from the Office of Publication* to subscribers in the United Kingdom—if to be sent in the Mails forwarded *via* New York or Boston, must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet, such papers may pass, as now, on prepayment by the publisher, at the time of posting, of the ordinary domestic rate of one cent per pound. Canadian Periodicals when sent by mail to the United Kingdom or to British Colonies or Foreign Countries (except the United States) are liable to ordinary book packet rates. All newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires *each newspaper or periodical* to be stamped. If sent in packages the English Post Office declines to forward them.

PATTERNS OR SAMPLES WITHIN THE DOMINION.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered on affixing thereto a registration stamp of the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade

marks, numbers, and prices, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

UNITED STATES.

Patterns and Samples of Merchandise, posted for places in the United States, will continue to be subject to the special rate of 10 cents each, prepaid by postage stamps, and must not exceed 8 oz. in weight.

UNITED KINGDOM.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 8 oz. in weight, and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz.

# THE NORTH-WEST REBELLION OF 1885.

The year 1885 will henceforth be known in Canada as "the year of the rebellion," and become a historical landmark by which other events will be determined. Just as we speak of the rebellion of '37 and discuss its causes and results so will our children speak of this later outbreak of '85, and fifty years hence, when those who are alive of the young men sent out to quell the uprising will be "veterans" indeed, it will by no means have lost its interest, but will be regarded as one of the factors, how large and important we cannot judge to-day—in shaping the destinies of the millions who will doubtless, at that time, inhabit the the fertile territories of the North-West. Then too, will the uncouth names of some of the places on the Saskatchewan have become classic, and stories of the loyalty, enthusiasm, endurance and valor of the volunteers of to-day be told as incentives to like virtues among the generations that shall include the sons' sons of the heroes of Batoche, Cut Knife Hill, and Fish Creek. Of

THE CAUSES OF THE REBELLION

we do not intend to speak, in fact the subject is full of difficulty from a non-partizan standpoint. Politicians of either political stripe have given their judgment in the matter, but it could hardly be expected that party feeling would not, consciously or unconsciously, color the medium of vision, and so it has happened that while we have on the one hand the fault of the uprising laid to the neglect of the government and the malfeasance of its officials, on the other hand it has been laid to the influence and devices of wicked agitators of the Liberal side. It is not ours to discuss rival blameworthiness, to attempt to fix upon any one individual, or collection of individuals, and say, "the guilt is with you." We think that a wiser and more patriotic course is to look at the questions fairly, all round, to see if, and what, errors have been made in our dealings with the Half-breeds and Indians in the past, and to endeavor to avoid such in the future. In the meantime we may be sure that the causes of so violent an eruption do not lie on the surface, nor are they of yesterday, right or wrong, justifiable or not, we shall have to consider the question in its entire surroundings, and to do what is demanded without prejudice. Law and Order once vindicated as they now happily have been, it is right that the bandage should be removed from the eyes of Justice that she may see what there is that she can do.

THE APPROACH OF AN OUTBREAK

was but little observed and still less heeded. Quite a number of parties connected with the various Land Companies visited the North-West during the summer and fall of 1884. We conversed with some of these on their return, and we do not think that any had an idea of the imminence of trouble and bloodshed; on the contrary everything was peaceful and progressive, and although the great "boom" in lands had passed away, and the spirit of wild speculation had received a severe though wholesome check, it was thought that a better, because sounder era had begun that would continue and increase without hindrance, in fact some of the very Indian Chiefs who are now under sentence of punishment for their crimes were seen and considered to be not only negatively peaceable, but disposed to do what they were able to further the welfare of the white settlers. But mutterings of the outbreak began to float eastwards. Riel had been across the line from Montana all the winter, he had been stumping the country, inflaming the minds of the Half-breeds with the story of their wrongs, visiting the Indians on their reserves, and sowing the seeds of disaffection amongst them. Then it was reported that a meeting had been held in the early part of March at which a "Bill of Rights" had been formulated and a Provisional Government formed with Riel as President. Even then there were many who could not believe that any serious results would follow, but regarded it all as only letting off the steam, and that all this talk and pretence was better out than in, that the effervescence would soon pass away and all be right again, and even when news was received of a startling character on the 22nd of March, that the Half-breeds had risen in arms, had been joined by large numbers of Indians, had sacked the government stores at Carlton and committed other overt acts, it was still regarded more in the light of a riot than of a rebellion, a small affair that could be put down by the mounted police, or in case that force was not sufficient, men and guns could be sent from Winnipeg, and would be able to reach the scene of the disturbances in a few days. In fact the militia authorities had already despatched one hundred men of the 90th to Qu 'Appelle, and two hundred more were held in readiness to follow, together with the Winnipeg Field Battery, if further aid was needed. All doubts, however, as to the character of the rising and the intentions of the insurgents were ended by the intelligence flashed over the country of the

BREAKING OUT OF HOSTILITIES

by the conflict at Duck Lake on the 26th of March. This place, known as "Stobart P. O.," is about half way between Batoche on the South branch and Carlton on the North branch of the Saskatchewan, and the conflict arose from an attempt of the Half-breeds under Gabriel Dumont (who was the true leader of the rebellion, for Riel was only a cowardly figure-head) to capture government stores, which, under a guard of about eighty mounted police

and forty volunteers, commanded by Capt. Crozier, were being conveyed from Carlton to Prince Albert. The story of the fight has been told so many times—like that of the other battles in the campaign—that it is almost impossible to know what are the exact facts as to the first shot and other details. On the side of the police it is stated that the bulk of the Half-breeds were concealed, and that suddenly, disregarding a flag of truce, on a real or feigned idea that they were to be attacked, they sprang forward and fired a volley into the police and volunteers. On the side of the insurgents it is alleged that the first shots came from the police, that seeing the Half-breeds scattering, Capt. Crozier thought they were endeavoring to surround him and gave orders to his men to fire, then in self defence the fire was returned. Whatever may prove to be the facts—if ever they are proven—the fatal results were sufficiently apparent, there were twelve of Crozier's command killed and eleven wounded. The volunteers, although numbering but half the police, lost five-sixths of the killed, which was attributed to the fact that they fought standing, the police lying down. The rebel loss was but four killed and two or three wounded. News of the fight was read everywhere on the 28th, and with the news came the

CALL TO ARMS.

The Government felt now that the rising required a strong hand and vigorous measures, and the Minister of Militia made a call for troops for active service in the North-West, and General Middleton to whom the service, in virtue of his position as commander of the forces in Canada was assigned, at once started by direct route for the scene of the conflict. While the action of the volunteers upon the calling out is described as it took place in Toronto, more immediately under the writer's eye, the description will stand for almost any part of the Dominion. There was not only a loyal and hearty response to the call, but in many cases a rivalry as to who should fill the ranks. In Toronto the demand was for 250 of the Queen' Own Rifles and 250 of the Grenadiers, but a much larger number might have been had if it had been asked for. And now begun the bustle of preparation, the summons came late at night, soon officers were dashing round the city in cabs rousing up the men with the news, and in the early morn the streets presented an appearance such as they had rarely seen, as if the fable of the dragons teeth had been realized, which, when sown, produced a crop of armed men, or like that scene in Scott's *Lady of the Lake* where the whistle of Roderick Dhu

"Garrisoned the glen
At once with full five hundred men."

As might have been expected the excitement and enthusiasm were fully shared by the citizens. Crowds assembled at the Drill Shed and filled all the approaches to it, and by their presence and utterances showed their hearty sympathy with the movement. We said that a larger number than 250 might have been obtained from each regiment if it had been called for, as a matter of fact the Queen's Own numbered 550 on parade, and it is doubtful if ten would have hesitated to go if their services had been needed; certainly many were disappointed because they were not selected.

Not since that first Sunday of June, 1866, when news came of the skirmish at Ridgeway, the death of some of the volunteers, and the suffering of others from an inefficient commissariat, had there been so exciting a Sunday as this. In

ALL THE CHURCHES

the subject was alluded to, in some in the prayers offered for the suppression of the rebellion and the safety of the volunteers, in others brief allusions were made to the circumstances, and in a few special sermons were preached on the crisis, but the day was altogether a different one to the quiet, peaceful, orderly Sabbath of ordinary times. The men were ordered to parade at 10 on Monday morning, and to leave at noon for the seat of war. The interest and excitement had now reached fever height in the city. Business was practically suspended, nothing was talked about but the departure of the volunteers, and when finally, soon after noon, the train steamed slowly out of the Union Station, the cheering of ten thousand spectators told the departing volunteers how heartily those left behind sympathized with them and wished them God-speed. The Toronto contingent was now fairly

ON THE WAY.

Nor was it alone in Toronto that such scenes took place, Halifax, Quebec, Montreal, Ottawa, Kingston, Belleville, and London successively contributed its quota, while Port Hope, Bowmanville, Barrie and other central places became the rendezvous and starting point of volunteers from the counties in which they were situated, while Winnipeg had already sent its contingent to the front, the 90th, whose subsequent losses told how forward its men were in times of danger; these, together with a troop of cavalry, a field battery, and the prompt organization of the 91st showed how deeply Manitoba was interested in the suppression of the Rebellion.

THE ROUTE TAKEN

from the Eastern Provinces was the subject of much and bitter controversy at the time. On the one hand it was alleged that the American Government would have given permission, if it had been asked, for the passage of the troops through its territory, or, if any doubt existed on that point, that the men should have been furnished with funds to pay their passage to Winnipeg with orders to report there, and their arms be sent through in bond. On the

other side it was argued that the American Government would most certainly have refused permission, and that the refusal would have been regarded as expressive of sympathy with the rebels, and so might have wrought incalculable evil, not only by stiffening the Half-breeds, but by drawing to their support a host of those restless spirits ever ready to plunge into any fighting whether in South America, Central America, Cuba or Canada. Already disquieting Fenian rumours of help in money and men had been circulated, and no possible chance must be given to make these rumours a fact. Besides this, it was said that it was of the highest importance to show that Canada was independent of any foreign nation for the moving of her troops from one part of the Dominion to another. We do not express any opinion on these contradictory views, we only express what we know is the general feeling of the men themselves, that the necessity ought to have been without doubt, to send them by such a terrible route. There is no question that

THE SUFFERINGS OF THE MEN

were very great. Perhaps that part of the journey performed on flat cars was the worst of all—each man has something to say about it. When morning came it found many of them with faces swollen and blackened almost beyond recognition, as one said, "Our own mothers would not have known us." Some had to be lifted off the cars as if they had been frozen solid, and it took some time to thoroughly recover from the effects of that ride. The necessity of the march to cover the gaps was the best thing possible for the men under the circumstances, heavy as it was it put their blood into circulation again, warmed them up, and more than anything else helped to prevent what might otherwise have proved very serious results to some of them. Before following the troops on their way we must turn from them to narrate particulars of a disaster that created intense feeling throughout the Dominion. We allude to the

FROG LAKE MASSACRE

which took place on April 2nd, at the time the Toronto volunteers were tramping it round the north shore of Lake Superior. Like all the events occurring during the rising of a distressing character, first reports were much exaggerated; the truth when it became fully known by the recitals of Mrs. Delaney and Mrs. Gowanlock was, however, terrible enough. The Gowanlocks on the day of the massacre were at the home of the Delaneys, with whom they had taken refuge. At early morn the house was surrounded by Indians of Big Bear's band, forcing their way in they took all the arms and ammunition they could find, and compelled the inmates to leave the house; from thence they proceeded to the residence of Quinn the Indian agent, stripping it in like manner. Back again to the house of Delaney from which they were again induced to go out on the assurance of Big Bear that they would be safe in the Indian camp. Scarcely had the party left the house than the Indians began firing. The first to fall were Messrs. Dill, Gilchrist and Quinn, then Mr. Gowanlock, then Mr. Delaney, followed closely by one of the priests as he was bending over the dying man; another priest also was killed at the same time, and then the maddened Indians set on fire the mission premises and threw the bodies of their victims into the flames. Frog Lake was near to Fort Pitt, and great anxiety was felt for the small body of mounted police there, and those under their protection consisting of some Hudson Bay officials and their families, an English Church missionary, Mr. Quinney and his wife, together with the farm instructor at Onion Lake. All these, except the police, were persuaded by Big Bear to leave the fort and place themselves under his protection. He then with his band attacked the little garrison of fifteen who successfully beat off their assailants, killing four, but in so doing had one of their own number killed and another wounded; they resolved, therefore, to evacuate the fort, carrying with them all they safely could of supplies and ammunition and destroying the rest. This was accomplished, and they reached Battleford in safety after eight days of hardship and suffering. We have not space in which to chronicle the movements of the different regiments, or the progress northward to the scene of the outbreak, we can only take up the main incidents of the campaign, and first comes

THE RELIEF OF BATTLEFORD,

which was felt to be of pressing importance. There were gathered in the enclosure, by courtesy called a fort, about six hundred in all, men, women and children; the Fort Pitt mounted police with some settlers had escaped down the Saskatchewan, as we have previously seen, and helped to swell the number at Battleford. The defences were of the most contemptible character, a palisading some three hundred feet long around the fort, one gun, a seven pounder, and two hundred fighting men, while it was impossible to tell how many foes there were, and at what time they might be launched upon the fort. Upon Col. Otter and his command devolved the duty of relieving the besieged, and worthily it was accomplished. Leaving the line of the railway at Swift Current on the 13th April the column marched to Battleford, a distance of about two hundred miles in six days. The night before entering the town the force encamped about three miles distant, and had the mortification of seeing by the light of burning houses the parting excesses of the Indians; the troops would have pushed on and attacked the savages, but Col. Otter wisely determined to wait for daylight, the temptation to let the force engage the foe was great, but the risk

was great also, and it was not taken; the men might have saved some houses from the flames, but likely at the cost of many lives, whereas they marched into Old Battleford the next morning without seeing an Indian or firing a shot. It need hardly be said that the relieving column was welcomed most heartily by those who for weeks had lived in constant apprehension of attack and massacre, and who for many days had been wearily watching the horizon for the coming of the troops.

The Indians who had left Battleford made towards Poundmaker's reserve, about thirty-five miles distant, carrying with them the goods they had obtained by sacking the stores, which they began to dispose of after Indian fashion. Upon consideration of all the circumstances, the probable number of fighting men Poundmaker had, the character of their arms, and the probable demoralization from their revels, Col. Otter determined

TO ATTACK THE BAND ON THEIR RESERVE,

believing that he could deal a decisive blow, one that would at any rate put it out of their power to do any more mischief for some time to come. This action of Col. Otter's has been strongly criticised, but it is generally admitted now, that while undertaken on imperfect information, with an insufficent force, and without, apparently, any decisive results, it was in reality an important factor in limiting both the area and the duration of the outbreak. Gen. Middleton, in his report to the Minister of Militia, says, "Though Lieut.-Col. Otter made this attack under a misunderstanding of my orders on the subject, he and his men seem to have done their duty well, and are deserving of great praise, and had the force been larger, the consequence might have been more decided." Col. Otter took a force of 325 men, selected from various regiments and the mounted police, a Gatling gun, and two seven pounders; leaving Battleford on the 1st of May he found his foes at daybreak the next morning. Of the details of this fight at Cut Knife we cannot speak here, suffice it to say that the troops were considerably outnumbered by the Indians and Half-breeds, who taking advantage of the natural shelter afforded by the position fought with the utmost determination. The two guns were both rendered useless, one early in the fight—by the giving way of the trail, and had it not been for the cool vigilance of their commander and the admirable behaviour of the men—few of whom had previously been under fire—a serious disaster might have happened to the column. As it was, after six hours fighting and having accomplished the object of the reconnoissance, Col. Otter determined to withdraw his men and return to Battleford. This at first threatened to be a dangerous movement, the Indians following and firing hotly, but the last shot which the second seven-pounder was able to fire effectually put a stop to further advance of the rebels, and the troops returned unmolested to Battleford, so ended the fight at

CUT KNIFE HILL.

Col. Otter had 8 killed and 14 wounded, 2 of whom subsequently died. The rebel loss was not known, but believed to be very severe.

We now turn to General Middleton's command and its fight with the Indians at

FISH CREEK

on the 24th April, a week before the engagement described above; but we wished to complete the account of Col. Otter's work before taking up that of the Commander-in-Chief. The plan of Gen. Middleton was to proceed to Prince Albert *via* Clarke's Crossing. The force was divided into two columns, one to march on either side of the Saskatchewan, so that on which ever side the rebels were found there might be a sufficient force to give a good account of them. The enemy was discovered, as at Cut Knife, by opening fire on the scouts. This fire came from mounted Half-breeds, who, after firing, immediately galloped to shelter. Rifle pits had been constructed in parallel lines after a fashion that showed considerable skill and military genius. These were planned and the rebel force was led by Gabriel Dumont. Under cover the Half-breeds and their allies fought stubbornly, and though their fire slackened in the afternoon it did not cease until night. Meantime Col. Montizambert and Lord Melgund had succeeded in getting over some troops from the opposite side of the river, principally the Toronto Grenadiers, when the rebels finding that they were being surrounded sullenly withdrew, taking their dead and wounded with them, except three Indians who were found dead by the troops in the ravine. Their total loss was reported at 11 killed and 18 wounded. The loss of the troops was more severe, their position and carelessness of shelter at first exposing them to the fire of the enemy. They had 10 killed and 40 wounded. Gen. Middleton in his despatches with the account of the battle said:—"I am afraid I shall have to stay some days in my present camp until I can send my wounded to the rear," and accordingly it was the morning of the 7th May, 13 days after Fish Creek, before an advance took place. The two columns were consolidated, and the General had under him 724 men, 4 guns and a Gatling, while the *Northcote* was placed in a state of defence and directed to drop down to Batoche, the objective point of attack. This was reached on the 9th, and the attack made, the firing continuing for 3 days longer, and only ending on the 12th by a decisive charge made by the troops on the rifle pits of the rebels. These had been carefully planned and well constructed under the same superintendence as at Fish Creek, that of Gabriel Dumont. The story of

THE FIGHT AT BATOCHE

has been told so often, and the details of the last day have been made the subject of such controversy, that it would be needless even if space could be spared to give a lengthened account of the four days' fight. Nothing decisive occurred until the morning of the 12th. Gen. Middleton having resolved to "peg away" until he took Batoche, which he was satisfied he should do, and feeling that if ammunition was being wasted on both sides he could better afford it than the rebels. On that morning two prisoners came into camp with a flag of truce from Riel, each with the same message, that if the houses where the women and children were gathered were shelled the rebels would massacre the prisoners. Middleton replied that he was most anxious not to injure women and children, and if Riel would get them all into one place and let him know where it was, he would take care that no shot should be fired in that direction. This became known to the troops and was the last feather that broke the camel's back. They could stand this desultory work no longer, but were impatient to make a nearer acquaintance with their foes. Accordingly after noon a force consisting of 60 men of the Midland and 200 of the Tenth Grenadiers being placed in position, the former led by Col. Williams and the latter by Col. Grasett, the whole under Col. Straubenzie, dashed forward with a cheer down the ravine, sweeping the enemy before them and clearing the rifle pits; pushing on, bravely joined by the men of the 90th, they soon were at the plain where the houses that had sheltered the rebels were situated, then a general advance was ordered, tremendous cheering went up, the whole of the houses were captured, and the prisoners released. It became, on the part of the rebels, a "save himself who can," and Batoche was won. The loss to Gen. Middleton's force was 8 killed and 46 wounded, while the rebel loss was certainly much heavier. It was in the charge on the rifle pits that Lieut. Fitch, of the Grenadiers, well known and esteemed in Toronto, fell mortally wounded.

This practically ended the rebellion, for while Dumont escaped across the lines and was soon in safety, three days after the battle Riel surrendered to two scouts. In the meantime hundreds of the half-breeds had been giving themselves and their arms up to Gen. Middleton, who dismissed the most of them with a caution, holding as prisoners only those who had made themselves prominent in the rebellion, members of Riel's council and such like. Then followed an expedition to capture the Indian chief, Big Bear, which was not successful, but hunger did the work and he finally gave himself up. He was anticipated in this by several of the bands of Indians and by the capture of Wandering Spirit, one of the Duck Lake murderers.

THE TRIAL OF THE REBELS

need not be dwelt upon. One or two, as the chief just named, actual murderers in cold blood were sentenced to death. Riel himself, after all that the best legal help could do for him, has lost the last chance the law could give him. His appeal has been rejected by the Privy Council, and unless reprieved by the Canadian Government the sentence of death will be carried out before this reaches the eye of the public. The task we had, to give a short account of the rebellion is done, and the space given us more than exhausted, but a few lines may be added to note

THE WELCOME HOME

of the troops. Taking Toronto as a sample of the whole, it was magnificent everywhere—a sight never to be forgotten—a holiday, the whole city on the streets, thousands in from the adjacent country, the booming of artillery, the strains of martial music, deafening cheers along the line, and then "the boys," each with a bouquet in the muzzle of his rifle, and with flowers showered upon them as they passed windows and balconies, a march to the Drill Shed and—home. There was many a happy family that night, and many a thankful heart sent up its offering to Him who had brought dear ones back again. But there were, alas! other homes into which no light came, where the darkness of death had fallen, and the dear one sent forth had come back only for the grave; but let us not say "no light," for had not death come in the performance of duty, and it is a noble thing so to die. The strife is past now, and who, with such an experience, will not join in the petition "Send peace in our time, O Lord."

## POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from $1 up to $300, or more with the permission of the Postmaster-General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

Deposits for children under 10 yrs of age may be made—

Firstly—by a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office wh most convenient to him.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster-General's office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

Every depositor must send his book once a year, viz., on the anniversary of his first deposit, for comparison with the books of the Department, and for insertion of interest. The book will be returned to him by next mail. At no other time should a depositor suffer his book to be out of his own possession.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

# MERCANTILE LAW.

PROMISSORY NOTES AND BILLS OF EXCHANGE.—Must be payable absolutely, and not depend upon a contingency. Three days' grace allowed except when payable upon demand. Can be written either in ink or lead pencil. Notice of dishonour must be sent to all endorsers. Those not notified are released from all liability. Notice must be sent to the correct address of endorser; but if that is not known, notice sent to the place where note or bill purports to be made will be sufficient. Cheques are treated as bills of exchange, and must be presented on the day they are received or on the following day. Notes and bills endorsed in blank are transferable by delivery, the same as if payable to bearer. Notes bear interest during currency only if so stated. The loss of a bill or note does not prevent the collection of it, but if required the holder must give indemnity before the lost note is paid. Notes and bills are payable any time during the day they mature. If no time is mentioned for payment. notes and bills are payable on demand. Notes made on Sunday are void. Notes and bills falling due on Sunday are payable the next day.

LANDLORD AND TENANT.—An agreement for a lease must be in writing; a lease, however, for less than three years can be made verbally. Rent must be due before it can be distrained for. If tenancy continues for a term of years, without any new bargain, it will be as a tenancy from year to year. No notice is required in case of the termination of a lease for a definite time. A full six months' notice, ending with the end of the year, is required to terminate a tenancy from year to year. A monthly tenancy requires a month's notice. A weekly tenancy requires a week's notice to end it. A covenant for renewal does not call for a renewal covenant in the new lease, unless expressly called for. Destruction by fire during the currency of a lease does not release the tenant from payment of rent unless expressly provided for. The landlord is required to look after the roof and outside walls, but the tenant cannot require any defect apparent at the time of the lease to be repaired. Defective drainage, causing injury to life or health, will justify a tenant in leaving.

MASTER AND SERVANT.—A servant is bound to obey all orders of the master in the scope of the employment; a disobedience of orders will justify an immediate dismissal. Both master and servant are entitled to reasonable notice before an engagement is terminated. A servant wrongfully dismissed is only entitled to the actual damage sustained; he must credit the master with any wages earned by him. The master is entitled to recover the damages sustained by reason of a servant deserting his employ.

LEGAL HOLIDAYS.—*In Ontario* — Sundays, New Year's Day, Good Friday, Whit-Monday, Christmas Day, the day appointed for the celebration of the Queen's Birthday, Dominion Day, and any day appointed by proclamation for a public holiday or for a general fast or thanksgiving. *In Quebec* — Sundays, New Year's Day, Epiphany, Annunciation, Good Friday, Ascension, Corpus Christi, St. Peter's, St. Paul's, All Saints, Conception, Christmas Day, Queen's Birthday, Dominion Day, also any day appointed by proclamation for a general fast or thanksgiving.

CONTRACTS.—Contracts may be either oral or written. Oral contracts require a consideration to support them. Contracts for sale of goods over $40 in value must be in writing or accompanied by part performance, or part payment. A contract may be made by letters and telegrams. Contracts made on Sunday (with a few exceptions) are illegal. Contracts contrary to public policy, or of an immoral character, are illegal. A contract for sale of land must be in writing. To make a good contract the names of the parties, the consideration, and the article sold or matter agreed upon should clearly appear. Fraud vitiates all contracts.

BILLS OF SALE AND CHATTEL MORTGAGES.—All sales and mortgages of personal property not accompanied by actual, immediate and continued change of possession must be in writing, with an affidavit of *bona fides* in the form required by the Act, and must be filed within five days from date of execution in the office of the Clerk of the County Court of the County where the vendor or mortgagor resides; or if he is not resident in Ontario, where the goods are situated, otherwise they are void as against creditors of vendor or mortgagor and subsequent purchasers or mortgagees in good faith for value. Mortgages to secure endorsements must set out the endorsements, and must be payable within one year. A renewal of chattel mortgage must be filed within thirty days preceding the expiration of one year from date of previous filing, otherwise the mortgage becomes void.

GUARANTEES—Must be in writing; will be construed strictly; should be distinctly worded, so that no question will arise whether limited or continuing.

FRAUD.—Sometimes criminal proceedings may be instituted for fraud. Fraud is always a ground of relief. It is a fraud to conceal a fraud.

INTEREST.—Where interest is payable and no rate has been agreed upon, the rate allowed is six per cent. Any rate can be contracted for. Interest is in the nature of damages, and it is not allowed upon open accounts, unless it is shewn that there is either an express or implied contract to pay interest. It is advisable to have printed upon bill heads or statements a notice that if the account is not paid when due, interest will be charged. Interest is allowed on overdue bills and notes from the day they become due. Payments are applied first in payment of interest to date, then in reduction of principal. The practice of allowing interest on both sides of an account to day of settlement is not correct. Compound

interest is not allowed, unless expressly agreed upon. A contract to reduce the rate of interest in case of punctual payment is good, while one to increase the rate in case of default is bad. Mortgages of real estate must shew on their face the rate at which interest is to be calculated.

PRINCIPAL AND AGENT.—Principals are responsible for the acts of their agents. Agency may be either general or limited. An agent must be a third person, not the other contracting party. A subsequent ratification of the acts of an agent will bind the principal. Agent's authority is not revoked till revocation is communicated to him. An agent signing in his own name is not allowed to offer parol evidence to prove that he did not intend to bind himself personally, but parol evidence is admissible to bind his principal. A broker is not entitled to receive payment for goods, while a factor is. A *del credere* agency is where the agent in consideration of a larger commission guarantees the price of the goods sold.

PARTNERSHIP.—Each member of a partnership is responsible for the whole amount of the debts of the firm, except in case of special partnership. A special partner is only responsible to the amount of the capital contributed by him, but he cannot take any part in the management of the business. The act of one partner binds all. Partners are bound to keep good faith with each other. Partnership may be either for a term of years or at will. A partnership at will may be dissolved at any time. The death of one partner dissolves the partnership, unless provided for in the articles of co-partnership. The sale by a partner of his interest in the firm also dissolves the partnership. In the absence of express agreement partners share equally.

LIMITATION OF ACTIONS.—On simple contracts, debts and money demands, six years. On contracts under seal, twenty years. For the recovery of land, ten years. Against municipal corporations for damages, three months. Against sheriffs and bailiffs for acts done in the course of their duties, six months. Part payment of a debt barred by the statute will revive the debt.

EXEMPTIONS FROM SEIZURE UNDER EXECUTION IN ONTARIO.—Wearing apparel of debtor and family, bed and bedding in ordinary use, one stove and pipes, one crane, one pair andirons, one set cooking utensils, one pair tongs and shovel, one table, six chairs, six knives, six forks, six teacups, six saucers, one sugar basin, one milk jug, one teapot, six spoons, all spinning wheels and weaving looms in domestic use, ten vols. books, one axe, one saw, one gun, six traps and fishing net, and all necessary fuel and provisions for debtor and family for thirty days, and not to exceed $40 in value, one cow, four sheep, two hogs, and food for thirty days, tools or implements to the value of $60, all materials furnished to mechanics and workmen for construction of building under contract. (No articles exempt from seizure for debt contracted for identical article). Landlord has preferential claim for *four weeks*, if let by the week; two terms, if let for periods less than a year, but in no case to exceed one year.

ASSIGNMENT.—There is no insolvency law. Assignments are made to trustee for creditors. A clause in assignment giving the trustee the power to carry on trade to realize as a going concern will not vitiate assignment. Trustee is bound to use ordinary business prudence in dealing with estate. Trustee is responsible for fraud or gross misconduct. The trustee's powers are limited to those possessed by the debtor, so he has no power to set aside a preference given by debtor. A fraudulent preference can only be attacked in an action by a creditor. A trustee can be compelled in equity to give an account of his dealings with the estate.

MARRIED WOMEN can carry on business, sue and be sued in the same manner as if unmarried. Are entitled to hold property free from debts and control of husband, but cannot convey away real estate without husband's concurrence. Are entitled to dower in all real estate owned by husband during the marriage, and in such equitable real estate as the husband may die entitled to.

ARREST.—Arrest for debt has been abolished, but if a debtor is about to leave Ontario with intent to defraud or hinder one or all of his creditors in the recovery of their claims, he may be arrested under a writ of *capias*, and detained until he gives security for the claim. A writ of *ca. sa.* may be obtained after judgment. The writ is only issued upon order of a Judge, and the debt must exceed $100. A judgment debtor being examined as such, and not making satisfactory answers, may be committed to jail by order of the Judge until he does make satisfactory answers. In the Division Court the Judge may order the debtor to make regular payments on the judgment, and default may commit him for not obeying the order.

REPLEVIN is used to obtain possession of goods wrongfully detained. Plaintiff must give security to three times the value of the goods before he can obtain them, and must proceed promptly with his action to prove the ownership of the goods.

WILLS.—A will should express the intention of the testator in clear language. It may be drawn by any person. A bequest to a witness is void. A will must be signed by the testator in the presence of two witnesses, who, at his request, in his presence, and in the presence of each other, should affix their names as witnesses. Charitable bequests are only payable out of pure personal estate; not out of real estate or personalty secured upon land.

Entered according to Act of the Parliament of Canada, in the year one thousand eight hundred and eighty-four, by COPP, CLARK & CO., in the Office of the Minister of Agriculture.

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.—Each of the High Schools (which form the intermediate link between the Public Schools and the Universities), is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Council, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, and certified as experienced in teaching. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of $400, and also a certain sum on salaries of teachers, general equipment and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. An extra grant is provided for masters taking certain meteorological observations. Pupils attending these schools are prepared for Matriculation in the Universities. There were 90 High Schools and 16 Collegiate Institutes, with 12,700 pupils, in Ontario, in 1884. J. E. Hodgson, M.A., and John Seath, B.A., Inspectors of High Schools.

PUBLIC SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,316 Public Schools, with 465,000 pupils, in Ontario, in 1884.

EDUCATIONAL MUSEUM.—Connected with the Education Department is a Museum, containing specimens of School apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in the Province of Ontario during 1884 was 5,360, attended by 480,000 pupils, and expending upwards of $3.700,000 in their support.

## THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

The Maritime Court is a Superior Court of Record, having, with some exceptions mentioned in the Act, the like rights and remedies in all matters, including cases of Contract and Tort, and proceedings *in rem and in personam*, arising out of or connected with navigation, shipping, trade or commerce, on any river, lake, canal, or inland water, of which the whole or part is in the Province of Ontario, as any existing Vice-Admiralty Court would have if its process extended to the Province of Ontario. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed $200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to $400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

INSOLVENT DEBTORS' COURTS.—These Courts, which had reference to traders only, were regulated by the Act known as the "Insolvent Act of 1875." This Statute has now been repealed, and the Courts and Assignees are only continuing to wind up pending cases.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 and the original amount was ascertained by the signature of the defendant, and to $100 in other cases of debt, subject to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or fran-

chise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

BEG to call the attention of the Trade that to the combined efforts of expert Departmental Buyers going to Britain twice a year and a resident buyer and staff there, they are enabled, by watching the home markets thoroughly, to contract and purchase lines of goods not obtainable elsewhere.

They can confidently assert that no house in the Dominion has elaborated and systematized their business to such an extent ; the effect and consequence are that year by year the trade constantly and uniformly increases. The stock is always large and varied and continually supplemented by new purchases of the latest novelties and value.

## They solicit an Inspection at All Times.

Letter orders or orders through travellers receive careful and prompt attention, but personal inspection is solicited.

# ÆTNA LIFE INSURANCE COMPANY.

It is believed that no Policy issued by any company presents such a combination of good points, favorable to the insured, as this one. It is called a **TERMINAL ENDOWMENT,** because it may be terminated at the end of Ten, Fifteen, Twenty or Twenty-five Years, for Cash, or may be continued, at the holder's option, payable at Death, or 80, by withdrawing only **THE PROFITS** at above periods.

The following is a sample of just one of its favourable provisions. Suppose a man aged 33 years at entry, should find himself unable to continue payments, his policy would stand good, without any action on his part, for nearly as much longer as it had already been in force, provided that he had paid not less than three years. Should he die within three years after he had ceased payment, the one, two or three premiums then past due, with 6 per cent. interest, would be deducted, but if death happens *after* 3 years, under the extension, the face of the Policy will be paid in full.

## AGE, 33.—POLICY, $1,000.—PREMIUM, $25.60.

**3** premiums secure extension for 2 years 180 days.
**4** premiums secure extension for 3 years 256 days.
**5** premiums secure extension for 4 years 360 days.
**6** premiums secure extension for 6 years 101 days.
**7** premiums secure extension for 7 years 199 days.
**8** premiums secure extension for 8 years 247 days.
**9** premiums secure extension for 9 years 247 days.
**10** premiums secure extension for 10 years 212 days.
**15** premiums secure extension for 13 years 231 days.
**20** premiums secure extension for 14 years 297 days.

All these policies are **INDISPUTABLE** and **NON-FORFEITABLE,** so soon as they have been three years in force, and are payable at death or 80 years of age, whichever arrives first. They are issued in the Mutual Department, and the Profits may be left to accumulate so as to render the face of the Policy payable as much earlier than 80 as possible. After ten years, and at any subsequent period of five years, the entire accumulation may be withdrawn in cash, and the Policy surrendered; or only the profits may be taken out, and the Policy continued, as the insured may desire at the time.

Now is the time to join. Do not delay. If already insured, have another policy on this latest and best plan. You will always be pleased with it. Cut this out for reference.

*Dominion Churchman* :—"Having tested the Model Washer and Bleacher sold by Mr. Dennis, 213 Yonge Street, Toronto, we can heartily recommend it. Its work is performed thoroughly, and the saving in labor is so great that combined with its cheapness and simplicity, should bring it into use in every household."
